11:45 AM – 1:00 PM

**Advancements in 3D Laser Scanning
and Mobile LIDAR**

Presented by

**Marcus Reedy, PLS
Director of Surveying and Mapping
David Evans & Associates, Inc.**

David Evans & Associates, Inc. (DEA) has been providing laser scanning services for 10 years and has completed hundreds of projects using a variety of laser systems. This presentation will demonstrate how laser scanning has evolved from a unique measurement tool for special mapping projects to an everyday measurement system that reduces risk and project costs. Attendees will see how the innovation of laser scanning systems are being applied to a wide variety of projects including mobile scanning systems mounted on vehicles and boats.
