

Sean Hinchcliffe

Oregon Institute of Technology Geomatics Scholarship

I'm 21 years old, soon to be 22. I was born and raised in Medford, OR, where I went to Crater High School. I played soccer throughout high school, and it's still my favorite sport. I also like to golf, although I'm not the best at it. I love to ride both kinds of bikes: motorcycles and bicycles. Playing the drums is another one of my hobbies, but unfortunately my set sometimes gets neglected until the weather is bad enough to abandon riding my bikes. I'm attending OIT in Klamath Falls for my degree in civil engineering, but I'm currently on an internship with the City of Portland. I plan on attending graduate school at some point, but I'm not sure where or what for exactly. I've always been a hard worker, but I make time for fun too. I believe myself to be a quick learner, and I value any experience I can get.
